# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

### Weather of Concern

#### **Northern California**

- There is currently no weather of concern for Northern California

#### **Southern California**

- A strong Santa Ana wind event over much of Los Angeles and Ventura counties beginning this evening through early Monday evening
- Combination of strong offshore winds and low relative humidity creating critical fire weather conditions anticipated for most of Ventura and Los Angeles counties until 1800 this evening.

### River Forecasts

As of 0955 hours on 02/08/16:

- All River Guidance (Flood Forecast) Points are currently below critical stages.

### **Active Weather Warnings, Watches and Advisories by County:**

### Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

# Super Bowl 50 Weather Situational Awareness

In collaboration with local, state and federal partners, the San Francisco Bay Area National Weather Service (NWS) Weather Forecast Office (WFO) will provide enhanced decision support services to Emergency Management partners in support of their public safety efforts around the National Football League's (NFL) Super Bowl 50 and events leading up to the NFL championship game being held at Levi's Stadium in Santa Clara, California.

We will continue to send out a morning email briefing to serve as a broad weather outlook for the greater San Francisco Bay Area through at least Feb 8. If updates are made, an afternoon email briefing will also be issued. Additional forecast briefings will be disseminated based on partner request and/or weather demands.

## Weather Summary

- Dry conditions are expected through the next seven days. Monday will be the warmest day of the week with temperatures approaching or exceeding record highs. Temperatures will begin to slowly cool after Monday but generally remain above typical seasonal readings. Offshore or easterly winds will be in place through Tuesday then then swing around to the northwest by midweek. Local gusts between 15 and 25 mph will be possible along the immediate coast and in the hills Monday and Tuesday. Beach hazards for rip currents and large shore breaks will be in place Monday.
- Monday will be the warmest day of the week with near record highs.
- Dangerous Beach Conditions Monday: Heightened threat of rip currents and large shore break this morning through this afternoon. With the near record highs and many visitors to the area, there will be a concern for dangerous beach conditions.

## 7 Day Area Forecast for the Greater San Francisco Bay Area:

**Today:** Sunny, with highs mostly in the lower 70s. East wind 5 to 7 mph becoming north.

**Tonight:** Clear, with lows mainly in the upper 40s. Calm wind becoming east around 5 mph.

**Tuesday:** Sunny, with highs mostly in the upper 60s. Calm wind becoming north northwest between 4 and 7 mph.

**Tuesday Night:** Mostly clear, with lows around 50. Light and variable wind.

**Wednesday:** Sunny, with highs mainly in the middle 60s. Calm wind becoming north northwest between 4 and 7 mph.

**Wednesday Night:** Partly cloudy, with lows mostly in the upper 40s.

**Thursday:** Mostly sunny, with highs mostly in the middle 60s.

**Thursday Night:** Partly cloudy, with lows mainly in the upper 40s.

**Friday:** Mostly sunny, with highs mainly in the middle 60s.

**Friday Night:** Partly cloudy, with lows near 50.

**Saturday:** Mostly sunny, with highs mostly in the lower 60s.

**Saturday Night:** Partly cloudy, with lows mainly in the upper 40s.

**Sunday:** Mostly sunny, with highs mainly in the lower 60s.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

#### **Medford Weather:**

Dry conditions low level offshore flow and above normal temperatures will persist into Tuesday. The warmest temperatures will be along the South coast and over the ridges. Mostly clear skies will prevail over most of the area.

#### **Eureka Weather:**

High pressure will bring mostly dry weather and above normal temperatures to Northwest California over the next few days. A weak front will bring the next chance for light rain late Thursday.

#### **Reno Weather:**

High pressure will bring generally light winds and unseasonably mild daytime temperatures this week. Strong valley inversions will continue today, and then weaken during the next few days as weak low pressure slowly approaches the west coast. Precipitation chances remain slim for the upcoming week.

#### **Sacramento Weather:**

There will be dry and mild weather for the interior of Northern California for the next week.

#### **San Francisco Weather:**

A strong ridge of high pressure will remain positioned over the west coast Monday resulting in the potential for record warmth across the Bay Area and central coast today. The ridge will begin to weaken tomorrow initiating a cooling trend which will bring temperatures back to seasonal norms through Valentine's Day weekend. Outside of a slight chance for rain over the North Bay Friday and Friday night, dry weather is forecast.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Hanford Weather:**

High pressure will continue to bring dry weather to the Central California interior for the next several days with patchy night and morning fog in the San Joaquin valley. A day to day warming trend will bring high temperatures above normal through the middle of the week.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

High pressure and gusty offshore winds will bring well above normal temperatures with possible record temperatures through early next week. The high will weaken towards the end of the week for a cooling trend however temperatures will remain above normal.

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

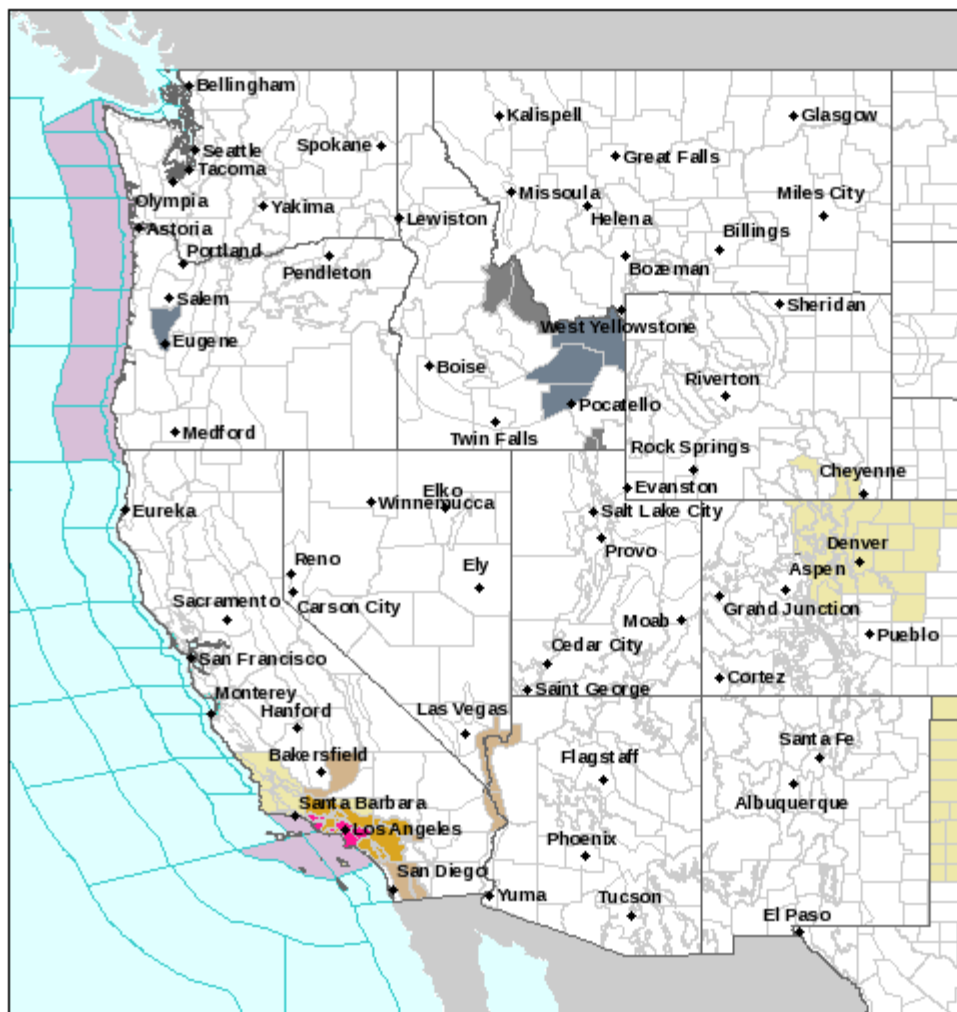

High pressure aloft over California will bring well above average high temperatures into next weekend. Surface high pressure over the great basin will bring periods of gusty Northeast winds near the coastal foothills into Tuesday strongest through this morning. Continued dry with weaker winds for the middle to latter part of the week.

#### **Southeast California Weather:**

High pressure will remain the dominant weather feature over the Southwestern United States through the coming work week. This will result in a prolonged period of sunny skies and above normal temperatures along with relatively light winds.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.
